

ITEQ Vietnam Co., Ltd is a contract manufacturer with our headquarters in The Netherlands. Our lean production facility is driven and controlled by enthusiastic technical people. We produce precision sheet metal products, assemblies and constructions made from steel, stainless steel, aluminium and other non-ferrous materials.

We are specialized in sheet metal fabrication and use processes like laser cutting processing, turret punching and assembling of high-quality mono parts and welded assemblies. In addition to powder coating and silk screen printing, we supply a total solution for our customers. Thanks to our reliable and outstanding network of local suppliers, we can now provide our clients with excellent service in this region of the world as well

*Engineering, production and final assembly of precision mechanical components, modules and coverings.*

With the use of high-tech production systems and high-quality assembly facilities, ITEQ Vietnam develops and produces (sheet) metal housings, enclosures and cabinets for the following industries.

- Medical
- Electronics
- Solar & Renewable energy
- Food
- Machinery
- Traffic management systems
- Aerospace & Agriculture

We optimize high standards in quality output and create the best buy for our customers. We focus on optimized processes, which results in stable quality.
